For Immediate Release

Mistral presence felt in ESEC 2002

Bangalore, June, 2002 - Mistral Software participated in the 5th Annual Embedded Systems Expo & Conference Show (ESEC) 2002 in Tokyo from 26-28 June 2002. ESEC is known as Japan's most significant embedded systems show serving the market with the latest in technology with over 300 major companies gathering under one roof.

Mistral had a large presence at the show with 4 booths. There was a special focus was on Mistral's Products and Design IP (Intellectual Property) and this served as an excellent platform to showcase Mistral's suite of protocol stacks in the global market. Mistral demonstrated its IPv6, IPSec, SIP stacks, Hardware designs and VoIP platform at the show. The performance & quality was highly appreciated by most of the visitors to the booth.

"Currently, Mistral has a few Fortune 500 Japanese companies as clients. They have outsourced Professional Services in both hardware and embedded software design. We have now started licensing our Networking & Wireless stacks in Japan. We expect to increase our Japanese clientele after the ESEC show." said K Chandrasekhar, GM-Business Development, Mistral software.

About Mistral

Mistral Software is an ISO 9001:2000 certified premier Product Realization Company providing end-to-end design services for embedded product design and development. Mistral has expertise in complex real-time solutions, RTOS, driver development, DSP, communication protocols, FPGA and hardware board design. The company has several re-usable software and hardware components that can help organizations get their product-to-market faster. Mistral has operations in USA, Japan, Germany and India.
